

TITLE OF THE INVENTION

PROCESS FOR MAKING 2-AMINO-5-CYANOTHIAZOLE

ABSTRACT OF THE DISCLOSURE

5 The present invention relates to methods of preparing 2-amino-5-cyanothiazoles, which are useful as intermediates in the preparation of compounds that are known to be useful in the treatment of cancer and other disease by inhibiting, modulating and/or regulating signal transduction of both receptor-type and non-receptor type tyrosine kinases.
